Mar 22, 2016 The app you just downloaded from the Mac App Store should automatically show up in Launchpad, ready for you to open with a single click.. Mar 02, 2017 To activate full-screen mode for any app on a Mac, it's really quite simple, and there are three ways you can do this: click the green button at the left of its toolbar, or press Command-Control-F, or choose View Enter Full Screen..
